a CMAA Member?

Welcome to CMAA’s Northern California Chapter!

Since 1982...promoting and enhancing leadership, professionalism and excellence in managing the development and construction of projects and programs.

Our members represent professional construction management firms both large and small, and the individual professionals in the organizations.

RULES FOR YOUR USE OF THIS SITE:

The CMAA Northern California Chapter makes this Employers / Students data available on a password-accessible basis, only to the employers and students who have accepted the publication of the data.

AS A CONDITION OF ACCESS, you have agreed not to provide this data to others, and to only use it to consider the following:

As an employer and CMAA member, you may submit your organization's data and review the student data and contact students to make them aware of job openings and internships in your organization only.

As a student, you may submit your data and review the employer data and contact employers with whom you may want to apply for employment.

As an employer or student, you may request your data be accepted, changed or removed at any time by emailing bpower@caltrop.com and making a request.

DISCLAIMER:

In gathering and publishing this information, the CMAA Northern California Chapter makes reasonable efforts to see that the data is genuine and appropriate for posting to this site. Once you read and act on the data, such as contacting the parties listed, it is your responsibility to conduct any actions or discussions in a way that protects your interests and that upholds reasonable exchanges with others. CMAA Nor Cal explicitly disclaims responsibilities for damages to any party. If you become aware of errors or incorrect postings, please email a notice to bpower@caltrop.com, so we may make corrections.

CMAA EMPLOYERS

AECO began in 1976, founded by Gene Reynolds, P.E. The firm now enjoys working with clients who average 83% repeat business in transportation, wastewater, water, airports and office buildings.	Yes. Field inspectors and contract administrators for large wastewater projects

STUDENTS

DATE OF UPDATE	STUDENT NAME, ADDRESS OR EMAIL	DEGREE; POSITIONS OF INTEREST	EXPECTED AVAILABILITY DATE
11/12/09	J. Student 122 Residence Hall A, #111 Berkeley, CA 95758 (916) 555-1111 StudentJ@Berkeley.edu	Field inspection, resident engineering or project management of transportation projects in the western USA. Since I have a BS in civil engineering and am receiving an MS in construction management, I desire to work under conditions that will support my application for a P.E. at an early date. I will consider working in design between construction management assignments. My internships include semiconductor plant improvements and CPM scheduling. Email me for a resume.	Will graduate from UC Berkeley's masters program and be available for work starting 5/15/2010; would relocate within western USA.
