Company membership does not assure you are a member. To confirm your membership status, go to: <http://cmaanet.org/find-a-cmpm>, input your last name followed by %, then click the Query button. *

No-shows, and cancellations after 9/8/10, are subject to the full fee — No exceptions. You may send a substitute at the appropriate rate.

Course Description:

Integrated Construction Management Principles will develop your construction management professional super structure and will elevate your professional management abilities and stretch your sphere of influence beyond the site and into the Client's Senior Administrative and decision making ranks. You will learn how to cross manage construction management modules. You will learn about valuable components of the project process such as long term planning, financing, programming, business development, marketing, public relations and relationships. Mastering these skills will offer value to Clients that cannot be measured by cost alone.

Instructor:

Thomas J. Fakner, CCM — Harris & Associates

Mr. Fakner has over 26 years of program and construction management experience and is a Certified Construction Manager (CCM) and licensed in the State of Idaho. He has been involved in award-winning projects, such as renovations to the Kennedy Center in Washington D.C., George Washington Hospital, and the Baltimore Washington International Airport terminal expansion and renovation and recently has completed constructing an Acute Care Hospital for Catholic Healthcare West in Merced, CA. Throughout his career, Mr. Fakner has mentored and partnered with architects, engineers, inspectors, and contractors to develop concise construction documents, construction management plans, and quality control and assurance protocols. He is an instructor for the University of California, Davis, Extension program since 2007.
