### **T.J. Chen, Airport Deputy Director, Planning and Development for Sacramento County Department of Airports**

**T.J. Chen** joined Sacramento County Department of Airports in 2015 as the Department's Chief Administrative Officer-Deputy Director for Planning and Development and leads the Department's efforts on airport planning, environmental compliance, wildlife and noise management, sustainability, engineering, architectural design, project delivery, capital projects, major capital program, and organizational development. T.J. embarked on his airports career more than 25 years ago as an airport engineering intern with the Federal Aviation Administration (FAA). In the 25 plus year span, T.J. held various project engineering, program management and leadership positions in both public and private sectors and in the US and abroad.

T.J. received his Bachelor of Science and Master of Science degrees in Civil Engineering from San Jose State University and is a licensed civil engineer in the State of California. T.J. was elected in 2021 as the 2nd Vice President for Southwest Chapter of American Association of Airport Executives (SWAAAE) and will be leading SWAAAE as its president in two years. T.J. is passionate about leadership development and advocates for AAPI representation and Diversity, Equity and Inclusion in the airports industry.

## **Transportation Trends and Opportunities, June 23, 2022**

T.J. also served in the US Marine Corps Reserves and is a graduate of FAA's Emerging Leaders Program. In his spare time, T.J. is an avid runner and uses the hashtag, #anothercityanother5k, to track and share his running adventures.

## **Ramses Madou, Division Manager of Planning, Policy, and Transportation for the City of San Jose**

### **Judy Ross, Assistant Director for Mineta San Jose International Airport**

Judy M. Ross, AAE, CAE, is the Assistant Director of Aviation for Mineta San José International Airport (SJC) since April 2018. She served as Interim Assistant Director of Aviation since 2017 and Deputy Director of Aviation – Planning and Development at Silicon Valley's airport since 2015. This experience has included managing the administrative functions of the Airport Director's Office as well as the five Airport divisions: operations, facilities and engineering, finance, planning and development, and business development.

Judy's vast knowledge of the aviation industry and steady management approach was developed through her years at SJC as well as at other U.S. airports. She served as Deputy Aviation Director at Phoenix Sky Harbor International Airport for seven years; Director of Airport Planning and Development at Little Rock National Airport for two years; and while at San Diego International Airport for 10 years, she was Manager of Program Controls, as well as holding other positions.

Judy earned a Master's degree in Aviation Management from Embry-Riddle Aeronautical University, and a Bachelor's degree in Business Administration from the University of North Dakota. She serves on the Board of Directors of the American Association of Airport Executives (AAAE) where she is an Accredited Airport Executive (AAE). Additionally, she serves as the Past President of the Southwest Chapter of AAAE, where she is also a Certified Airport Executive. In addition, she services on the Board of the International Partnering Institute and received the Chairman's Award for 2021.

### **Judi Mosqueda, Director of Project Management, Planning, Design & Construction San Francisco International Airport**

Judi is the Director of Project Management for Planning, Design & Construction at the San Francisco International Airport. As Director, she is responsible for implementing a \$7-billion capital improvement program that aspires to revolutionize the guest experience at SFO and modernize Airport facilities to meet forecasted passenger and airline demands through 2035.

After receiving a Bachelor of Arts in Landscape Architecture from the University of California, Berkeley, Judi focused on delivering public sector projects that enhance people's daily experience using San Francisco's transportation systems, roadways, parks and plazas. She was instrumental in replacing 1950s-era elevated freeways with multi-functional boulevards, including the renowned Embarcadero waterfront boulevard.

At SFO, Judi's passion for place-making guides her delivery of exceptional projects. With a nuanced understanding of integrated project delivery and the progressive design-build contracting method, Judi's focus on relationships between designers, builders and stakeholders has enabled early completion of exceptional projects. As Director, she manages a staff of 20 highly talented project managers
